

MD. IMRAN-UL-HUQ

Computer Science Graduate

 63/1, Shantinagar, Dhaka, Bangladesh  ik11150500218@gmail.com  +8801829417862  md-imran-ul-huq-b6b712202  Imrann-Khan

ABOUT ME

Ambitious and results-oriented Computer Science graduate with hands-on experience in full-stack Developer using different stacks. Proven ability to design, develop, and deploy feature-rich applications, demonstrated through personal and academic projects. Eager to apply strong problem-solving skills, honed through competitive programming achievements, to a challenging Software Engineer role in the Software Industry.

Achievements

- Finalist in DevSprint 2024: Inter-University Software Development Competition, hosted by BUET
- 22nd position in IDPC (Independence Day Programming Contest) 2023
- 2nd runner-up in IDPC (Independence Day Programming Contest) 2022

Experience

Intern

Teletalk Bangladesh Ltd, Gulshan, Dhaka, Bangladesh

February 2024 – March 2024

Gained extensive knowledge of SIM communication technology and acquired practical insights into its integration within comprehensive operator systems, enhancing technical expertise in modern telecommunications.

Projects

• ONE CONNECT

June 2024 – October 2024

Source Code: [Link](#)

Flutter, Firebase-auth, Firestore-database

This mobile app connects individuals in need of financial aid with those willing to assist, whether for emergency relief, education, or personal challenges.

• IoT-Enabled Boat for Water Pollution Monitoring and Floating Waste Detection & Collection

June 2024 – October 2024

Source Code: [Link](#)

ESP32S microcontroller, ESP32CAM, YOLOV8 model

This project focuses on the design and implementation of an IoT-enabled boat to monitor water quality and collect floating waste in small water bodies.

• Elite Dwell Assistant

July 2023 – November 2023

Source Code: [Link](#)

Tailwind, Daisy UI, JavaScript, React, Firebase, Node, Express, MongoDB

Connect with ease – find or offer services like maids, drivers, babysitters. Our platform ensures secure matches, seamless communication, and reliable payments. Transform the way you hire or find jobs in home services.

• Sniff-n-Paws

March 2023 – June 2023

Source Code: [Link](#)

Tailwind, Daisy UI, JavaScript, React, Node, Express, Oracle

A web app for pet care and veterinary check-ups. Connect with experienced vets to ensure your cat, dog, or rabbit receives the best care. Simplify pet parenting with Sniff-N-Paws.

• MHI-Pharmacy

March 2023 – June 2023

Source Code: [Link](#)

Java, Scene Builder, JavaFX, IntelliJ

A Java application for efficient pharmacy management.

Education

B.Sc. in Computer Science & Engineering

April 2021 – June 2025

Military Institute of Science & Technology

CGPA: 3.3 out of 4.00
